Bonds were dull and the movement irregular. United States 2s and the new 4s declined ½ per cent on call on the week.

The eash gain was \$1,797,290 and it was The cash gain was \$1.797.290 and it was largely due to receipts of the proceeds of foreign gold, at the close of the week ending Oct. 14, which were then paid through the local assay office; this sum of nearly three millions counted for the Lu., week in the averages. With receipts or money for other sources there should, it would seem, have been a greater gain in cash. Deposits decreased \$2,248,290, or more by \$501,200 than the sum of the \$3,754,200 contraction in loans less the increase in cash; therefore the statement did not prove. The required reserves was crease in cash; therefore the statement did not prove. The required reserves was reduced \$74,550 through the decrease in deposits; adding this sum to the cash gain, as above, made \$2,371,759 as the increase in surplus reserve to \$12,582,159. Computed upon the basis of deposits, less those of \$8,485,609 public funds, the surplus is \$14,704,650. It may be noted that the decrease in loans since Aug. 5 has a use far been \$119,483,600; the net loss in cash in this interval has amounted to \$38,-850,159, and the reduction in deposits of \$175,885,500.
